

Dear Parents / Carers,

The government has published a list of key workers. Please [click here](#) to read the government guidelines.

Where the children of key workers can be looked after safely at home, then they should be looked after at home.

Our teams at each centre have prepared home education packs and are preparing to teach your children remotely should this be required.

What is important now is that we quickly identify and collate the names of students who's Parents / Carers are key workers.

If your work is critical to the COVID-19 response, or you work in one of the critical sectors outlined in the government guidance, we will need you to complete an online form. Please [click here](#) to access this form.

Thank you again for your patience and understanding during this time. We will continue to update you as and when we can.

Please stay safe and follow all the public health guidance below:

Self-isolation

Your entire household must self-isolate for 14 days if one person in the household has a new persistent cough or a temperature.

Hand washing

The most important thing everyone can do to protect themselves is to wash their hands more often, for at least 20 seconds with soap and water. DO not touch your eyes, nose or mouth if your hands are not clean.

Social Distancing

We should be trying to follow social distancing measures as much as possible to reduce social interaction between people, including significantly limiting your face-to-face interaction with friends and family.

You can find more detailed guidance here: <https://www.nhs.uk/conditions/coronavirus-covid-19/>

Kind Regards,

C Cook
